Sprint1 Weekly Meeting #4 13-09-2021

Date:　　　　Sep 13, 2021

Time:　　　　12:00 pm - 12:30 pm

Attendees:

Bojing Zhou Bojing Zhou ,

Felipe Ramos Morales Felipe Ramos Morales ,

Shiqi Zhang Shiqi ZHANG ,

Xiaoyu Zhang XIAOYU ZHANG ,

Ziqi Meng Ziqi Meng

Meeting summary:

Team member	Doing	Will do	Announcements	Discuss
Bojing		writing tests for homepage and page two	-	-
Xiaoyu	modify and component fix UI for page one and page two.	file sending form page two to page4	-	-
Felipe	VGF to file section (integrating UI, still pending)	Connect pageOne to visualisation and work on a Demo narrative for Nir meeting.		-
Ziqi	adjust the display of animation including the size of blocks and position of claw; improving the UI for the visualizer page including adding the controller buttons and adjusting the step info panel; realize functions that show the previous/next step and the final goal by click particular buttons (the code had been pushed to the git)	working on some artifacts documents	-	-
Shiqi	the interaction between the steps and subgoals (that is, once a step is clicked, the corresponding completed subgoals will display with dark green background-colour	the dynamic changes between each step.	-	It is kind of difficult, since I did not find a function that can draw dynamic routes directly, so I may have to write a function to realize the flash showing the block movements. Do you guys know if there are any helpful functions?
